Roses

Roses have become the most popular flowers and plants in the garden. With all the new varieties one may select any color or combination of colors they may desire.

While we do not grow our own Roses, we take great care to get plants that are grown as near as possible to our local conditions. Therefore, we secure our Roses from one of the largest rose-growing specialists in the country. They are located only fifty miles west of Syracuse.

We carry only No. 1, two year, field grown, budded plants, thus assuring as far as possible, the strongest of plants which will bloom well the first season. All our Roses are guaranteed to grow the first summer and to be true to name.

PLANTING INSTRUCTIONS FOR ROSES

When you receive your Rose plants they should be planted at once, if possible. If not, the package should be moistened without uncovering the roots and kept in a cool place, or unpacked and laid in a trench, covering up practically all of the branches as well as the roots and kept wet until they are planted.

To Prepare the Bed—It should be dug at least 18 inches deep and filled with good soil and rotted manure mixed well together and well packed down.

Roses will be trimmed and ready for planting when delivered. They should be planted about two feet apart.

The plants which we furnish are all budded and it is very essential that they be planted so the bud is at least two inches below the surface of the ground, after it has been leveled off. Have the hole large enough so as not to crowd the roots and pack the soil firmly down as it is filled in. Do not allow any manure to get against the roots of the plant. Put fertilizer on top after planting and allow it to stay on until the plants have started to grow good; then it can be forked into the ground.

Keep Well Watered

$1.00 varieties	10.00	" "
1.25 "	12.50	" "
1.50 "	15.50	" "

Amelia Earhart. A lovely garden Rose producing a wealth of immense, extremely fragrant, yellow blooms. The full flower graduates from a deep yellow center with outer petals of cream with blush overtone. 1.25

Autumn. Most extraordinarily colored rose-bud — burnt sienna — on strong stems for cutting. Foliage glossy and very dark green and resistant. ..... .75

Better Times. (Patented). The brilliant cerise flowers are large, double, and delicately fragrant on long strong stems. Very free bloomer. 1.25

Carillon. This lovely new Rose is like its name. The blossoms are of soft, yet brilliant flame and coral tones. The bush is branching, so that when planted in mass the whole bed is blanketed with glossy foliage upon which rest the many blooms. 1.00

Countess Vandal. Long pointed bud with distinctive shadings of coppery-bronze, suffused with soft gold. The plant is very vigorous and blooms unceasingly throughout the summer. 1.00

Dame Edith Helen. The flowers resemble a perfectly shaped, bright pink Francis Scott Key. The most perfumed of all pink Roses. ..... .75

Eclipse. The international sensation of the year. The long stream-lined bud, enhanced by ornamental sepals, is of rich gold without shading. Petals are large and tough, but not numerous, averaging 20 to 25, with more in the autumn. 1.50

E. G. Hill. Great massive blooms of deep maroon, velvety on inside. ..... .75

Etoile de France. Bushy plants with large dark crimson blooms. ..... .75

General MacArthur. Medium size flowers of Tyrian red. Double fragrant. ..... .75

Gloaming. This variety has large buds which are carried on long rigid stems amply clothed with handsome foliage. The blooms are large and full and of soft satiny pink heavily laden with salmon and amber. Delightfully fragrant. 1.25

Joanna Hill. Very double bloom with Indian-yellow center surrounded by gold buff petals. ..... .75

Kaiserin Auguste Viktoria. Double, pure white bedding Rose. ..... .75

Lady Ashtown. Brilliant glossy pink flowers. ..... .75

Luxemberg. Moss type. Deep crimson. .75

Margaret McGredy. Brilliant red petals on hinges of deep gold. Buds upright. Seldom out of bloom. Very hardy. ..... .75

Mary Hart. A striking red Talisman. The bud is deep rose-red, opening to well-formed blossoms of velvety-red with an overglow of amber. This red Rose cannot be recommended too highly. 1.00

Matador. A bright crimson with darker silvery sheen. It is a soft velvety crimson with a maroon depth, blending well with other Rose colors. The bloom is large and double. Sturdy grower. 1.25

McGredy's Pink. The color is a beautiful bright rose, and, as the flower opens, the outer petals shade to a pearly cream and pink, with a saffron-yellow base. Its blooms are large, of perfect form, and sweetly scented. They are produced on stiff stems, free and continuously from early summer to late autumn. 1.50

McGredy's Scarlet. Large flowers are brilliant scarlet with orange base and the upper portions of the petals are lightly washed crimson.

Mevrouw G. A. VanRossem. Brownish yellow flowers, strongly shaded with copper-pink. ..... .75

Mme. Butterfly. The finest of the Ophelia type. Bright light pink, shaded with gold. ..... .75

Mme. Edouard Herriot. The original of all the bright orange-flame varieties. .75

Mrs. Erskine Pembroke Thom. The fine long buds open into perfectly shaped flowers of rich lemon-yellow. ..... .75

Mrs. Francis King. The bloom is very large and full, carried on a long upright stem, white drawing to pale gold in the center. It has the pleasing fragrance of wild roses and is a prolific, continuous bloomer. One of the best white Roses yet to be produced. 1.25

Olympiad. This brilliant red Rose is unique, a lustrous, dark oriental scarlet, its depth accentuated by the golden base and intensified by a rich velvety sheen. ..... .75

Ophelia. Buds are long and pointed, cream and blush, opening to a large creamy-white bloom. ..... .75

President Herbert Hoover. Maroon, orange and gold. ..... .75

Radiance. Large, brilliant rose-pink blooms. ..... .75

Red Radiance. A bright rosy red form of Radiance. ..... .75

Rev. F. Page-Roberts. Buds of golden yellow stained copper and reddish buff, flowers large, lemon yellow, scented. .75

Rochester. A lovely constant flowering bedder of the Roberts form of bud and flower, with the Echo type of growth, freedom of bloom, and hardiness. The color of the bud is like Roberts, with more pronounced carmine markings on the reverse of the petals, with more blush in the open flower. This is sure to be a great garden favorite. 1.00

Rocket. Exquisite bud of bright scarlet-red. Large double blooms, full to the brim of rich old rose perfume. 1.00

Roslyn. Full golden yellow bloom, deeper in center, with orange splashings on back of petals. ..... .75

Sensation. Handsome buds; large blooms of very deep blackish maroon; highly perfumed. ..... .75

Signora. This is, without doubt, one of the grandest Roses in many years. Its long bud is of a warm brownish orange, opening to a lighter tint toward a combination of mandarin and salmon. The bloom is double, but not crowded, and very fragrant. The plant is vigorous, branching, and tall growing. 1.50

Souvenir. A golden Talisman, one of the loveliest of Roses. Its bloom is a rich deep golden yellow, and it is a prolific producer of fragrant flowers and cutting. 1.00

Souvenir de Claudius Pernet. The old stand-by for a real yellow Rose. ..... .75

Talisman. Fragrant bloom of glowing golden yellow outside, and stained with copper-red and orange-rose on the inside of the petal. ..... .75

Temno. The largest of all the darkest roses. Is not "black," but not far from it. Has richest deep maroon velvety tones. Large well formed blooms in great quantity. 1.50

Texas Centennial. A sport of President Hoover with all its wonderful plant qualities. Color is blood red toning to cerise red in center. Most striking new red of unusual color. 1.00

White Briarcliff. The first and only absolutely pure white Hybrid Tea Rose. Vigorous, bushy plant of unusual arcticness. Tremendous producer and ideal for cutting. Keeps a long while in water. 1.25

Willomere. It has magnificent brilliant pink flowers suffused with a golden light. ..... .75

Ramblers and Climbers

Blaze. This is the only hardy everblooming scarlet climber. It has every element to insure its success, for Blaze combines the vigor, beauty, and hardi-

ness of Paul's Scarlet Climber with the everblooming qualities of a favorite ever-blooming Rose. 1.00

Climbing American Beauty. Large buds and flowers of bright purplish pink. ..... .75

Dorothy Perkins. Flowers soft shell-pink, small, crinkly, in great clusters. ..... .50

Dr. W. Van Fleet. Large flowers of exquisite pale pink on fine, long stems. ..... .75

Doubloons. A vigorous climber with heavy wood and handsome glossy foliage. When in bloom, the whole plant is literally covered with clusters of large golden blooms. Bud ovid, deep saffron-yellow, flower large double, cupped; rich gold, fading but little, fragrant. Gives two liberal crops six weeks apart if the first spring blooms have not been cut. 1.50

Excelsa. Bright crimson flowers in large clusters. ..... .50

Golden Climber. (Patented). The most unusual feature of this Hybrid Tea climber is that its extreme hardiness is combined with blooms of Hybrid Tea type and quality; long lasting and most always being able to withstand sub-zero temperatures. 1.00

New Dawn. (Patented). Everblooming Dr. W. Van Fleet. Vigorous free blooming. 1.50

Paul's Scarlet Climber. Flowers large, well-shaped, vivid scarlet-red; fading but little. ..... .75

Dwarf Polyantha or "Baby" Roses

75c each; $8.00 per doz.

Cameo. A new and distinct color, shell-pink and salmon with a glow of gold. Large sprays in continuous succession.

Cecil Brunner. (Sweetheart Rose). Light pink tea-like flowers; very free bloomer.

Else Poulsen. Flowers medium size, semi-double, lasting bright rose pink.

Kluis Scarlet. Very generous blooms of brilliant red. Ideal for mass planting.

Miss Edith Cavell. Brilliant crimson, with white center, pompon type.
